[illegible]

N O T I F I C A T I O N.

Sub: Electricity - Restriction and control - Restrictions imposed in the area of the Mangalore Electric Supply Company Limited consequent on the break down of an engine set in Mangalore Power House - Modifications to notifications dated 9-12-'53.

****

Whereas in P.W.D. G.O.Ms.No.4112 dated 11-10-'51 the Chief Electrical Inspector to Government has been authorised to regulate the supply of electrical energy under section 3 of the Madras Essential Articles Control and Requisitioning and (Temporary Powers) Act, 1949, (Madras Act XXIX of 1949) in the area of self generating Licensees and whereas in G.O.Ms.No.4579 dated 8.12.1953 the Chief Electrical Inspector to Government, has been authorised to impose further restrictions that may be considered necessary, I, Sri P. V. Karantha, Chief Electrical Inspector to Government, in exercise of the said powermake the following modifications to the order of restrictions dated 9.12. to enable the Mangalore Electric Supply Company Limited to sucessfully tide over the emergency created consequent to the breakdown of one engine generator set in the Power House of the said Company.

This order shall be effective in the area of supply of Messrs Mangalore Electric Supply Company Limited and shall be deemed to come into force with immediate effect.

Temporary Supplies.

4. The licensee, Messrs Mangalore Electric Supply Company Ltd shall not comply with requisitions for temporary supply except as follows:-

(a) In Residential remises:- Temporary supply shall only be for ceremonial domestic functions like marriages, grihapravesams etc., (but not for festivals like Deepavali, Christmas, Ramzan etc.,) provided the connected load does not exceed 2 K.W., and the period for which supply is requisitioned does not exceed 3 days.

(b) In places of ublic Workshop: For festivals, provided the connected load does not exceed 5 K.W.and the period for which supply is requisitioned does not exceed 7 days.

(c) In Public places:- For public meetings, opening functions, anniversaries of institutions, exhibitions and concerts etc., provided the connected load does not exceed 2 K.W. and the period for which supply is requisitioned does not exceed 2 days.

Domestic Supply, Reconnections.

5. The licensee, Messrs Mangalore Electric Supply Company Ltd., shall not comply with any requisition for re-connection of a domestic supply, except under specific orders of the Chief Electrical Inspector to Government, for services under disconnection for more than 3 months.

Cinemas:

6. Cinemas taking supply from the Mangalore Electric Supply Company Limited shall be permitted to exhibit evening shows on three days a week in addition to Sunday, provided they agree in writing to a cut in consumption of 25% on the average consumption of the Cinemas in the months of September, October and November 1953.

4. Industrial loads:

(a) Installations of old consumers who were being permitted to work before the breakdown on all days without restrictions. These shall be permitted to work except on Sunday and one other day to be specified by the licensee

(b) Installations of consumers having partially old loads working without restrictions and the rest, new loads permitted under restrictions;

(i) Those who disconnect the additional loads connected under restricted hours of supply shall be permitted to work as class 4 (a) consumers specified above.

(ii) All others shall be permitted to work on all days except Sundays and 1½ other days in the week, as specified by the licensee.

(c) All loads originally permitted under restrictions to work at night only shall be permitted to work during nights except on Sundays and one other day in the week to be specified by the licensee.

( ) All loads originally permitted to work at night and partially in day time shall bepermitted to work only in day time during the hours originally specified, for five days in the week, excepting Sunday and one other day to be specified by the licensee.

(e) All loads originally permitted to work only partially in the day time, shall be permitted to work partially in the day time during the hours originally permitted, for four days in the week, excepting Sunday and two other days to be specified by the licensee.

(f) All loads originally permitted to work fully in day time, shall be permitted to work on four full days in the week except Sunday and two other days to be specified by the licensee.

(g) Ice factories shall be permitted to work on five days in the week during all hours excepting 6 P.M. to 9 P.M. keeping off on two days in the week to be specified by the licensee

(h) Kiln fans working for 24 hours shall be permitted to work for 24 hours on all days provided the consumer surrenders a load equal to twice the connected load of the Kiln fan.

(i) Railway and motors driving oil pumps for emptying fuel oil tank wagons shall be permitted to work as hitherto.

Revd.24.12.53.

Chief Electrical Inspector to Government.

Sub:-Electricity - Mangalore Elec Undertaking - Breakdown of rating set in Power House. Curtailment of load - Impt of restrictions - Further orders issued.

Ref:-From the C.E.I.G. letter No.6 &C/52-18 dated 22-12-53.

--

Order:-

In G.O.Ms.No.4579 P.W. dated 8-12- the Government approved a scheme of r tions throughout the area of supply o electricity of the Mangalore Electric Undertaking in view of the emergency created due to the breakdown of a gen set in the licensees' Power House. T C.E.I.G. has since inspected the Pow House and studied the restrictions in detail ~~and he~~ and he locally has notified a scheme of restrictions in the licensee area of supply after amplifying the re tions approved in G.O.No.4579 P.W. dat 8-12-53. He requests the Government -

(i) that his action in having auth the licensee to bring into f his revised scheme of restri may be approved; and

(ii) that he may be authorised in anticipation of sanct the Government; relaxati generally or in respect cular loads, when the n arises for relaxing the tions in power supply in

2. The C.E.I.G's proposals are

pproved.

Sub:-Electricity - Mangalore Electrical Under taking - Breakdown of generating set licensee's Power House - Enforcement restrictions.

Read:-G.O.Ms.No.4579 P.W. dated 8-12-53.

Ref:-From the C.E.I.G. letter No.694-K/R&C/52- dated 22-12-53.

The file relates to the enforcement of re trictions on the consumption of power in the area of the Mangalore Electrical Undertaking to tide ov the emergency created by the breakdown of a genera set in the licensee's Power House.

2.At the beginning of December, 1953, the Electrical Inspector to Government reported that t of the generating sets in the Power House of the M lore licensee had failed (one of them only temporarily), and that it was likely to take sometime before repairs were effected. The ca city of the licensee's generating station had thus been curtailed by more than 250 K.W. The licensee reported that the peak demand of the station was 9 K.W. during day time and 1150 K.W. in the evening. the available capacity of the Power House was insuf cient to meet the above demand the licensee conside that it was essential to curtail the demand to 750 during day and 1000 K.W. in the evening. The C.E. therefore submitted proposals to Government for the introduction of a scheme of restrictions in the Mangalore licensee's area to tide over the emergenc successfully. The C.E.I.G's proposals were examined and orders were issued in G.O.Ms.No.4579 P.W. dated 8-12-53, approving the restriction scheme submitted by the C.E.I.G. The C.E.I.G. was also authorised t impose any further restrictions, if the necessity arose, in anticipation of approval of the Governmer With a view to ensure effective enforcement of the restrictions so as to bring about the anticipated re to the system, the C.E.I.G. was also authorised under

ection 3 of the Madras Essential Articles Control and equisitioning (Temporary Powers) Act, 1949, to empower he licensee to ~~discontinue~~ disconnect supply to any consumer who had een found repeatedly violating the restrictions imposed fter giving 24 hours notice in writing. Based on these rders, the C.E.I.G. issued a notification under the Madras ssential Articles Control and Requisitioning (Temporary owers) Act, 1949, authorising the imposition of restrictions n the Mangalore licensee's area.

3. The C.E.I.G. has since issued instructions to the licensee to bring into force a detailed scheme of restrictions, amplifying the scheme already approved in the above overnment order, after an inspection of the Power House and etailed study of the restrictions locally. He now requests

(i) that his action in having authorised the licensee to bring into force his revised scheme of restrictions may be approved; and

(ii) that he may be authorised to order, in anticipation of sanction of the Government; relaxations generally or in respect of particular loads, when the need arises for relaxing the restrictions in power supply in the licensee's area.

There seems to be no objection to accept the .E.I.G's proposals.

A draft Order is submitted.

4. The file may be circulated to M(W), for approval.

Electricity Department.

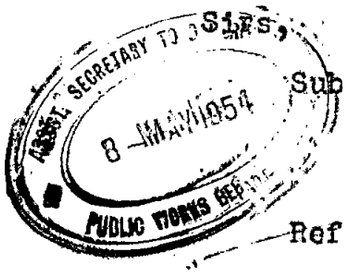
From	To
The Chief Electrical Inspector to Government, 157, Mount Road Madras - 2.	Messrs. Mangalore Electric Supply Company Limited, Mangalore.

No. 694-K/R&C/52-35 dated 1.5.1954.



Sirs,

Sub :: Electricity - Restriction and Control - Breakdown of No. 1 Generating set - Withdrawal of restrictions consequent to commissioning of 500 KW Generating set hired from the Government Electricity Department - Notification -

Ref :: Your Telegram dated 3.4.1954.
Your letters No. MAN/1016/67-B dated 12.4.1954 and MAN/1133/67/3 dated 21.4.1954 forwarding your proposals for relaxation in hours of supply to industrial loads.

I enclose herewith a copy of the notification under Madras Essential Articles Control and Requisitioning Temporary Powers Act 1949 withdrawing the restrictions now in force in your area of supply and would request you to give wide publicity to it and take urgent actions towards implementing the same.

2 It is noted from your letter dated 12.4.1954 above referred t that due to slight unforeseen difficulties at the time of commissioning you were able to effect removal of staggering of weekly holidays in respect of industrial consumers in your area having a demand of 15 KVA and more, only with effect from 5.3.1954 though you were authorised to implement the same immediately in this office Express telegram dated 3.4.1954 sent in reply to yours of even date requesting for such removal.

3 You are also further hereby authorised to effect relaxation in hors of supply to industrial consumers as proposed by you in your list forwarded under cover of your letter dated 21.4.1954 mentioned above subject to the condition that relaxation is effected strictly in the order of priority, only for loads that are under active utilisation and if necessary by stages and that supply is liable to be suitably restricted, staggered or cut off altogether as the case may be as and when the power position or any other emergency in your Power House warrants such a course of action. It is noted in this connection that/the 4 consumers/for coming under your area No. 3 such relaxation is not technically feasible as the underground cables feeding these consumers' loads are loaded to capacity during day time. It is also noted that after implementing your proposed relaxation to the full there will not be any consumer in your entire licence area receiving supply during restricted hours in the nights only excepting the above 4 consumers coming under area No. 3 to whom such relaxation is reported to be not technically feasible. You may also take urgent necessary action to afford relaxation to these 4 consumers by strengthening the concerned underground cable feeding their loads under advice to this office.

Yours faithfully,

Chief Electrical Inspector to Govt.

Encl: one notification.

Copy to the Secretary to Government, Public Works Department, Madras with a copy in each of the licensee's telegram, letters and enclosure thereto for information of Government. I am glad to inform/that further to the recommissioning of the /Government brokendown set of the licensee in his Power House after repairs a 500 KW Generating set hired by the licensee from the Government Electricity Department has also been commissioned in the licensee's

Copy of letter No. MAN-1016-67B dated 12th April, 1954 from the Mangalore Electric Supply Company Limited, Mangalore to the Chief Electrical Inspector to Government, Madras - 2.

Sub :: Electricity - Restriction and Control - Installation of 500 K.W. Additional Set - Relaxation of Restrictions.

I thank you for your telegram dated 3rd instant reading "Your Telegram Third Presume 500 Kilowatt Set Working Satisfactory Removal Staggering Weekly Holiday Industrial Consumers Permitted".

After taking over the set from the erectors on the 2nd instant, the set was run on the 5th instant. It was found after five hours run on 300 K.W. load the exhaust was black. The set was shut down and the injectors were examined. It was found that there was heavy carbon deposit in the form of a cake at the tip. The injectors were cleaned and put back again. According to Maker's layout drawing the air intake is in the same tunnel as the exhaust pipes with the result that the exhaust pipes have to be heavily insulated to keep the air temperature in the tunnel within reasonable limits. As it was found that the insulatio provided was not sufficient, the exhaust pipe was further lagged. The set could not be run between 6th and the 8th both days inclusive. On the 9th instant the set was again run on 300 K.W. load with the same result viz. the exhaust became black after six hours. The cause for the black exhaust is being investigated. The set however is working satisfactorily otherwise. In the circumstances, the staggering of weekly holidays of industrial consumers was removed with effect from 5th April, 1954. It is found that after the removal of staggering the day time load on the station is only 867 KW as several Tile Factories are not working their electric motors.
